SATURDAY, JULY 24, 1858.

The Democrats of Wayne Township meet in the Court-House this afternoon to appoint delegates to the county convention to be held next Saturday. There seems to be quite a rivalry among the candidates for Clerk, each of whom has got up a ticket for delegates, and is industriously drumming up his friends to the rescue. We presume there will be a large vote given. For the other offices there is but little said—the great strife seems to be for the Clerk's office.

There is not much said about candidates for Representatives; the honor of that office would seem to be not very highly appreciated, and no efforts are making to secure a nomination. We have two to elect this year. We have heard the names of J. Hunter of Perry, C. McCormick of Abote, J. Robinson of Pleasant, N. McLain of Root, and M. Jenkins of Wayne spoken of, but we do not know that any of them are desirous of the station. We hope two good men may be selected, as Allen County is one of the most important democratic counties in the state, and ought to be well represented by able men and staunch democrats. This is a matter deserving the serious attention of the convention.

During Attempts at Bargary.—On Monday night last, at or after midnight, three fellows made an attempt to get into the house of Mr. J. Conger, but were fortunately seen by Mr. R. Wade, a young man boarding in the next house, who was sitting at his window; he made some noise which scared them off. The next night he determined to look out for them, and at about 2 or 3 o'clock they again made their appearance, but seeing him, they went off without his interference. He then notified the family of what he had seen, and a watch has been kept up every night. On Wednesday, Mr. Wade received a letter through the post-office, complaining of his interference, and threatening to put a ball through his head. Last night they again visited the house, but seeing parties watching them through an open window, they threw a piece of brick, striking one of the party a severe blow on the head. A few shots fired at the rascals from a revolver put them to flight.

This is certainly a strange affair, and shows a most unaccountable determination on the part of the burglars, which demands investigation. A strict watch will be kept up, and it is to be hoped they may yet be discovered and brought to justice.

North District.—The democratic Congressional Convention was held at Plymouth on Wednesday last, and on the first ballot nominated JOHN C. WALKER of Laporte (formerly editor of the State Sentinel) as their candidate for Congress. Hon. Norman Eddy was President of the convention.

The resolutions reported from the Committee and adopted, were as follows:

Resolved. That we cordially approve and respectfully carry out, the great principle of Self-Government as enunciated in the Kansas-Nebraska bill—affirmed in the Cincinnati Platform, and reiterated in President Buchanan's inaugural Address.

Resolved. That we have unbounded confidence in the wisdom, integrity, and patriotism of our present National Administration.

The Republicans in the same district have dominantly Hon. Schuyler Colfax for reelection.

FIRE.—A fire broke out on Tuesday morning about 2 o'clock in the stable in rear of the lot occupied by Mr. Wiley on Washington street. It speedily communicated to a stable on the adjoining lot, belonging to D. H. Colarick, and another on the opposite side of the alley, belonging to T. Hamilton, and occupied by G. Mayer—all of which were consumed. The fire companies were speedily on the ground, but from the want of water were unable to render much assistance.

It appears Mr. Colarick's house had been rented by a Dr. Abbot, who harbored a lot of disreputable females, and on this fact being discovered, efforts were made by Mr. Clerck and some of the neighbors to have them put out. Some of the women are believed to have been in the barn on the night of the fire, and the presumption is that the fire was either caused by their recklessness, or that it was wilfully done out of malice.

We would advise the former to pay a little more attention to this branch, however trifling it may appear to them in comparison with the more pretentious studies which occupy their attention. No one can be looked upon as a good scholar, whatever other branches he may have studied, who cannot spell correctly; and besides it is an imperfection of so glaring a nature that it will always show itself. Let the older scholars copy the example of the younger, and they will profit by it. With this single drawback, the scholars acquitted themselves admirably, and we believe would compare favorably with those in any other institution in the country.

A public exhibition will be held in the large hall of the Western School on Monday evening at 8 o'clock, at which time the citizens

A Novel Way to prove a Charge!—The Republican of the 7th inst. in noticing an article in our paper, on the commencement of a new volume, in which we stated that it was *as yet* since we commenced the paper, and that for all these years we had *strongly* supported the motion, that the anniversary of Perry's victory, the 10th September, be appropriately celebrated at Put-in-Bay, this scene of the exploit. It is proposed to hold a grand union picnic and steamboat excursion from all the principal ports on the Lake, have an Oration raise a monument to the memory of the brave tar who fell on the occasion, &c. &c. The idea strikes us as eminently fit and appropriate, and we trust to see it carried out.

Auguste Dierkes has contended the business of basket making one door west of the Goodman House, and makes an excellent article of Willow Baskets, which he sells on reasonable terms. This will be a great accommodation to the public, as he can furnish any desired style, size, or quality of basket that may be desired. We notice he has some nice large covered baskets—the very thing for the approaching picnic.

We direct attention to the advertisement of Messrs. UNDERHILL & CO. of the Fort Wayne Marble Works. They have on hand a heavy stock of marble, keep steadily employed a large force of skillful workmen, and will promptly fill all orders for tombstones, obelisks, and every other description of monumental work, mantles, table-tops, and all kinds of marble work. It is well worth a visit to their establishment to examine the many beautiful specimens of art they have on hand. This is one of the largest marble works in the state, and will promptly fill all orders in the most favorable term.

Thos. TIGAR, Esq.—

Will you permit me, through the medium of your paper, a word in reply to an editorial article in the Fort Wayne Times of the 15th inst., wherein Mr. Dawson professes to think it would be a matter of interest to the citizens of the 10th Congressional District to know something about the appointment of a Cadet to West Point Academy for said district. Mr. Case gave the appointment to my Nephew, Arthur F. Read, at my solicitation—together with other friends who were kind enough to use their influence in his behalf. The young man is a resident of Fort Wayne, and was even previous to Mr. Case's election; and had not he received the appointment would have remained here. If his having been born and lived in another part of the State be an objection, the fact that there was no other applicant would of itself—to any fair and candid mind—obviate objections of the character urged by Mr. Dawson. But I claim I had the same right to ask the appointment for him, that he or any other person could have to ask it for any one.

I have only to add that Mr. Case, in giving it, acted in good faith; and if there be any reason why the appointment should not have been given him, I alone am responsible for it.

A Good Idea!—The Toledo Blade has suggested, and the papers in the other lake cities concur, second the motion, that the anniversary of Perry's victory, the 10th September, be appropriately celebrated at Put-in-Bay, this scene of the exploit. It is proposed to hold a grand union picnic and steamboat excursion from all the principal ports on the Lake, have an Oration raise a monument to the memory of the brave tar who fell on the occasion, &c. &c. The idea strikes us as eminently fit and appropriate, and we trust to see it carried out.

Boston, July 16.—Letters from Ft. Kearny, dated June 30, say General Harney was there for 6 days expecting the arrival of new instruction from the War Department. One postscript to the letter says that an express had arrived, but as it brought no advice from Washington, the march would be resumed July 17.

The mail from Independence has arrived, with

dates to the 15th of July, but the news is unin-

portant.

A difficulty had occurred, growing out of per-

istence of the Indians in driving cattle and horses upon hay grounds, known as Ewell Camp near Fort Defiance. Major Brooks had been obliged to send a Company of Soldiers to drive the herds off and protect the grounds from encroach-

ment. Several cattle and ponies were killed by the soldiers, and a skirmish occurred between

troops and Indians, but none of either party

were killed or wounded.

Our dispatches from Leavenworth the 13th, pre-

dicted United States Express to Boonville says:

Express arrived to day from General Harney who was engaged in 6 days beyond Fort Keary. Col. Monroe's column is beyond the

Sioux Fork of the Platte. Col. May was in good spirits and thought the undertaking would suc-

cess. Stormy weather interfered very much.

ing whether Denmark has fulfilled the resolution of

the Diet. It will then deliver an ultimatum fix-

lationships.

The German papers are loud in their praise

of the virtues on all the most noted points on the

subject.

The Turkish Imperial decree calling out 100,-

be occasioned by the necessity of having at hand

government was determined to apply to all the

provinces conformable to its engagements with the

allied powers.

Hostetter's—The surprising effects of Hostetter's Vegetable Stomach Bitters in removing bile, forcing an appetite, improving health and tone to the system, and dissipating dyspeptic symptoms, is truly wonderful. Every nervous, debilitated; weak and amazemented person, male or female, should try it at once. One wine-glassful taken three times each day, before meals, or if the patient should be a lady or child in a debilitated condition, half the quantity will do until sufficient strength is restored, which will be realized in a very short time, and convince the patient of the truth of the above named happy result, which have gained for these Bitters such an invincible reputation everywhere. Hoover. — The surprising facts of Hoover's Vegetable Stomach Bitters in removing bile, forcing an appetite, imparting health and tone to the system, and dissipating dyspeptic symptoms, is truly wonderful. Every nervous, debilitated; weak and amaciated person, man or female, should try it at once. One wine-glassful taken three times each day, before meals, or if the patient should be a lady or child in a debilitated condition, half the quantity will do until sufficient strength is restored, which will be realized in a very short time, and convince the patient of the truth of the above named happy result, which have gained for these Bitters such an invitation reputation everywhere. Far sales by druggists and dealers.

A Lady's Opinion—Of a Lady's Man.—Mrs. Stephens, in her excellent Monthly Magazine, which "pitches in" against a class of men which is becoming far too numerous:

"Our own private opinion of the Lady's man is, that he is thoroughly contemptible—a sort of specimen of the life that is not worth thinking about—a muthell with the kernel withered up, a handful of foam drifting on the wine of life; something not altogether unpleasant to the fancy, but of no earthly use. A woman of sense would as soon put to sea in a man-of-war made out of shingles, or take up her residence in a card-house, as to dream of attaching herself to a lady-killer."

Women worthy the name, are seldom deceived into thinking our lady's man the choicest specimen of his sex. Whatever their ignorance may be, a womanly intuition must tell them that the man who live for great objects, and whose spirit are so firmly knit that they are able to encounter the storms of life—men whose depth are wanting of feeling, recollect the powerful current of a mighty river, and not the bubbles on its surface, who, if they long are not smitten by mere beauty of form or features—that these men are more truly worthy of even occupying their thoughts in idle moments than the man who has had, with whom, with whose attention they amuse themselves. If we were to tell him this, he would only laugh, he has no pride about him, although full of vanity, and it matters not to him what may broadly affix or finally insinuate?"

A Sagacious Dog.—Mr. Wm. Scantling, formerly of this place, now residing in Huntington once owned the favorite Dog Birch, now the property of Jesse Zern of this city. Scantling was down on the 4th, and prevailed upon Zern to let him take Birch home with him on a visit. Birch visited Scantling's family, and looked around Hunting a few days, when being content with hunting, he walked over to the depot, and without the knowledge of Mr. Scantling, or anybody else, took the first train to Peru. He came into town from our Depot last evening in company with the other passengers from the East. Birch had no acquaintances aboard and no money. It is supposed he strolled his fate, the only mean trick he was ever accused of. Birch's sagacity is elicited first in deciding to take a train rather than walk, and second in distinguishing between trains going east and west.—*Peru Republican.*

Touching Incident.—Some gentlemen passing through the beautiful village of Renton, in the Vale of Leven, Dumfriesshire, about 9 o'clock at night, a few days ago, heard their attention directed to a dark object in the church yard. On going in to ascertain what it was, they found a boy of tender years lying flat on his face, and apparently sound asleep over a recently made grave. Thinking this not a very safe bed for him, they shook him up and asked how he came to be there. He said he was afraid to go home, as his sister, with whom he resided had threatened to beat him. "And where does your sister live?" asked one of the party. "In Dunbarion," was the answer. "In Dunbarion—about four miles off, and hom come you to wander so far away from home?" "I just can't," sobbed the poor little fellow, "because my mother's grave was here." His mother had been buried there a short time before, and his cooking a refuge at her grave; his sorrow was a beautiful touch of nature in a child, who could scarcely have yet learned to realize the true character of that separation which knows of no return on earth. Father had lie instantly wandered to set out his sorrows, and to moisten with tears the grave of one who had bid evidently cried himself asleep.—*North British Daily Mail.*

Feelings with a Lady friend gets the Marriage.—We never here seen expressed the sentiment of left behind! loneliness, which is experienced by bachelors at holes being carried off by others till the publication the other day of a letter of the celebrated Thomas Paine. "In writing one of his fair acquaintances who had become a bride, he says: "When I see one of my friends drop off by matrimony, I am sorry of it, thinking that affects me like a loss. In spite of all the appearance of joy, I cannot help missing the compliment of regret with those of congratulation. It appears to me as if the original was no more, and that she has changed to forsake the circle and forget the scenes of former society. Felicities and cares superior to those she formerly cared for, present for her a new landscape of life, that excludes the little friendship of the past. It is not every lady's mind that is sufficiently capacious to prevent the greater objects from crowding out the less, or that can spare a thought to former friendship, after she has given her hand and heart to the man who loves her."

Railroadism.—The following is one of the Rutland reports:

"Resolved: That nothing is true or right, and nothing is false or wrong, because it is sanctioned and condemned by the Bible, therefore the Bible is powerless to prove any doctrine to be true or any practice to be 'right,' and it should never be quoted for that purpose."

"Here is more Black Republicism! This is what Berlingame meant when he said: "We must have an anti-slavery Constitution, an anti-slavery God, and an anti-slavery Bible." That means if the Constitution, the Bible, and the teachings of God don't square with the views of the Black Republicans, they will repudiate the Constitution, the Bible and the Almighty God, —Other Seamen.

The Defalcation in Tennessee.—The Vicksburg Whig of the 25th ult., has the following: "We learn from the Memphis Bulletin that in addition to the plundering by the Secretary of State of some \$35,000 and the embezzlement of \$123,000 of bonds that should be in the Comptroller's office by—nobody knows who—there has been discovered by the investigating Committee a further of \$208,000 by—and nobody seems to know who—in the shape of coupons taken in the Bank of Tennessee. So far, then, there is found out to have taken place pilfering to the amount of some \$560,000."

A Change of Sentiment.—Vermont has become tired of anti-slavery oritement; she has had too much of the good thing, and is now willing, justly to stop the negroes from coming. Read the following from a Vermont Patriot:

"What is to be done with this race of population, is the point to which the attention of philanthropists and statesmen should be directed. The entering wedge to all action, is the inauguration of some system by which a certain stop will be put to the illegal introduction of colored persons into the free States. In other words, a log must be laid across the track of the underground railroad. This would prevent a large yearly increase of that class of population, which is hanging like a millstone around the neck of our industrial progress. Then thin the present population by fostering the colonization plan by all possible means, and the question, what shall we do with the free negroes of the North? is a fair way of receiving practical solution."

Godey's Lady's Book.—speaking of hooped skirts, says: "If the ladies who carry this fashion to excess only know what remarks are made upon them, and how they are laughed at, we are sure they would come from the hoghead size to that of the flour barrel."

The Short Time System.—A Northern editor, speaking of the credit system, says there is a merchant living near his office, who insists on giving him credit for whatever he wants, and frequently sends the boy to collect the bill before he gets home. This he calls credit on the short time system."

"The man who tried to sweeten his tea with one of his wife's smiles has fallen back on sugar. A friend or ours wished to know if he hurt himself by the fall."

"Read the biography of our great, good men and women," says an exchanage, "not one of them had a fashionable mother. They nearly all sprung from plain women who had about as little to do with fashion as with changing clouds."

"A man in Kentucky killed a cow a few days since, in whose stomach was found a large brass ring, a hair pin, and a quantity of hooks and eyes. "Brindle" had probably swallowed the milkmaid."

"Mons. Regnard, who went up in a balloon from Bruxelles last Monday, says that the mercury in his thermometer went down to thirty two degrees below zero, and that, though well provided with clothing he severely felt the intensity of the cold. He landed on Long Island, about fifty miles from New York, and so gently, as he says, that if a basket of eggs had been in the car, not one would have been broken."

SATURDAY, JULY 24, 1858.

The Democrats of Wayne Township meet in the Court-House this afternoon to appoint delegates to the county convention to be held next Saturday. There seems to be quite a rivalry among the candidates for Clerk, each of whom has got up a ticket for delegates, and is industriously drumming up his friends to the rescue. We presume there will be a large vote given. For the other offices there is but little and the great strife seems to be for the Clerk's office.

There is not much said about candidates for Representatives; the honor of that office would seem to be not very highly appreciated, and no efforts are making to secure a nomination. We have two to elect this year. We have heard the names of J. Hunter of Perry, C. McCormick of Abbe, J. Robinson of Pleasant, N. McLain of Ross, and M. Johnson of Wayne spoken of; but we do not know that any of them are desirous of the station. We hope two good men may be elected, as Allen County is one of the most important democratic counties in the state, and ought to be well represented by able men and staunch democrats. This is a matter deserving the serious attention of the convention.

Free School Pic-Nic and Railroad Excursion.—This promises to be one of the most interesting affairs ever got up, and to far as we can judge will be attended by a very large portion of our citizens, as well as quite a number from the surrounding country. To prevent crowding, and equalizing the cars will be open for the reception of passengers at seven o'clock, one hour before the time for starting, which is fixed for eight precisely. The place selected is Thrall's Grove, a most beautiful spot in the back of Centre Lake, and immediately adjoining the depot ground in the town of Warsaw. Short addresses will be made by several citizens of this place and Warsaw, interspersed with music, and singing by the scholars and the Harmonic Society. The tickets are only 50 cents—children 25 cents—and we had at most of the stores.

It is earnestly requested that all will provide themselves with tickets without delay, in order that it may be ascertained how many cars to have in readiness. If any disappointment occurs it will be entirely owing to the neglect of those who do not get tickets before the hour of starting. The committee have no means of estimating the number of cars necessary except by the number of tickets sold. A sufficiency for these will be provided, and if there is any deficiency of accommodations it will be owing to the neglect of procuring tickets in season. "First come first served" will be the motto.

School Examination.—This examination of the scholars in our free schools was brought to a close yesterday. It was highly interesting to those who attended, and creditable alike to the scholars and their teachers. The scholars in the primary departments, especially, showed a remarkable proficiency, and gave proof that if the school could be kept up to give them an opportunity of completing their studies, they would make good, thorough scholars. The more advanced classes, who have obtained a part of their education in other schools, did not seem so thoroughly grounded in some of their studies as those younger ones who had studied entirely in the free school. This was particularly the case in spelling—one of the most important branches of education. Some of the higher classes were quite deficient in this study, while all the younger ones were remarkably perfect, and scarcely in need a word. We would advise the former to pay a little more attention to this branch, however trifling it may appear to them in comparison with the more pretentious studies which occupy their attention. No one can be looked upon as a good scholar, whatever other branches he may have studied, who cannot spell correctly; and besides it is an imperfection so glaring a nature that it will always show itself. Let the other scholars copy the example of the younger, and they will profit by it. With this single remark, the scholars acquitted themselves admirably and we believe would compare favorably with those in any other institution in the country.

A public exhibition will be held in the large hall of the Western School on Monday evening, at 7 o'clock, at which the citizens

A *Good Idea.*—The voice of India has suggested, and the papers in the other lake cities second the motion, that the anniversary of Perry's victory, the 10th September, be appropriately celebrated at Put-in-Bay, the scene of the great wheels of labor which move the entire machinery of civilization, enlightenment and Christianity, which are the pillars of man's hope and the nation's stay.

RUDOLPH.

—Sr. Louis, July 16.

Letters from Ft. Keppen, dated June 20, say General Harvey was there for 6 days expecting the arrival of vessels from the War Department. A steamer had been tried and was sent on a charge of inciting his compatriots to rob Cape Guardafui, \$600,000 under his charge to meet incidental expenses.

Capt. Mayne's commands were part

of Mr. Bailey for the proof. He has accordingly been testing himself by reading History's History of the United States, and finds that nearly 50 years ago Mr. Calhoun reported in favor of a recharter of the U. S. Bank, and 41 years ago Mr. Calhoun was in favor of a national bank, even going back as far as the Presidency of Jefferson, and finds that he signed the bill establishing the Bank of the U. S.—This going back from 50 to 60 years to prove what a party has done within the past 25 years is certainly a very neat method, and it would be difficult to get up a new work on evidence—it would have the merit of originality at least. But this is not all. He next proceeds to show that Mr. Denier in 1831 opposed the bank and introduced the money system which became the watch word of the democratic party! By his own showing therefore the democratic party has been an anti-bank party for 27 years, and this he calls proving that it has been bank and anti-bank within 25 years!

Thus, Then, Esq.:—Will you permit me, through the medium of your Paper, a word in reply to an editorial article in the Port Wayne Times of the 13th inst., wherein Mr. Dawson professes to think it would be a matter of interest to the citizens of the 16th Congressional District to know something about the appointment of a Cadet in West Point Academy for said district. Mr. Case gave the appointment to my Neophyte, Arthur E. Reed, at my solicitation— together with other friends who were kind enough to use their influence in his behalf. The young man is a resident of Fort Wayne, and was even previous to Mr. Case's election; and had not received the appointment would have remained here. If he having been born and lived in another part of the State has an objection, the fact that there was no other applicant would of itself—in any fair and kindly mind—obliterate objections of the character urged by Mr. Dawson. But I claim I had the same right to ask the appointment for him, as any other person could have to ask it for any one.

I have only to add that Mr. Case, in giving it acted in good faith; and if there be any reason why the appointment should not have been offered for his apprehension. Our vigilant sheriff Mr. Fleming, has been on the look out for him since, and after spending more than the amount of the reward in tracking him up, finally ascertained that he was in Vermillion Co. in this state, to which place Mrs. W. H. Lind was dispatched a few days ago, and succeeded in arresting the desperado, and brought him to our county jail for safe keeping.

We have certainly got a most excellent sheriff in our county, who has made himself a terror to evil doers, and richly earned the gratitude of the whole community. His term of office expires this fall, but he deserves, and we believe will receive, an almost unanimous vote for re-election. For the other offices there is but little and the great strife seems to be for the Clerk's office.

During Attempts at Burglary.—On Monday night last, at or after midnight, three fellows made an attempt to get into the house of Mr. J. Conner, but were fortunately seen by Mr. R. Wade, a young man boarding in the next house, who was sitting at his window; he made some noise which scared them off. They then left, but being seen by him, they went off, and about of 2 or 3 others, they again made their appearance, but seeing him, they went off, finally ascertained that he was in Vermillion Co. in this state, to which place Mrs. W. H. Lind was dispatched a few days ago, and succeeded in arresting the desperado, and brought him to our county jail for safe keeping.

This is certainly a strange affair, and shows a most unaccountable determination on the part of the burglars, which demands investigation. A strict watch will be kept up, and it is to be hoped they may yet be discovered and brought to justice.

North District.—The democratic Congressional Convention was held at Plymouth on Wednesday last, and on the first ballot nominated J. C. Walker of Laporte (formerly editor of the State Sentinel) as their candidate for Congress. Hon. Norman Eddy was President of the convention.

The resolutions reported from the Committee and adopted, were as follows:

Resolved., That we cordially approve and will resolutely carry out the great principle of Self-Government as enunciated in the Kansas-Nebraska Bill—affirmed in the Cincinnati Platform, and reiterated in President Buchanan's inaugural Address.

Resolved., That we have unbounded confidence in the wisdom, integrity and patriotism of our present National Administration.

The Republicans in the same district have nominated Hon. Schuyler Colfax for reelection.
